DETAILED ACTION

Remarks

1. In view of cancellation of claims 1-10, the Examiner withdraws the rejection under 35 U.S.C 103(a) to claims 1-10. The addition of claims 11 and 12 has been acknowledged.

Allowable Subject Matter

2. Claims 11-12 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show a rotating electric machine comprising: a stator having a stator core and a slot, the stator core comprising a substantially cylindrical back core section and two adjacent teeth each projecting in a radial direction from the back core section, wherein the slot is formed between the two adjacent teeth; a coil wound around one of the teeth and being housed in the slot; a projection projecting from a face of said one of the teeth to an inner section of the slot substantially in a circumferential direction; a stopper disposed on a lateral face of said one of the teeth between the projection and the back core section, the stopper projecting to the inner section of the slot substantially in a circumferential direction, wherein the stopper and the back core section define a coiling region through which the coil is wound, whereby the stopper supports the coil in contact with the coil; and a closing member for closing the opening of the slot to form a cooling passage in the slot, wherein the closing member is supported by a groove formed between the projection and the stopper.
